description:

Skin smart vital ingredients assist natural growth factor crosstalk through Interval Treatment Technology™ to transform aging and environmentally damaged skin. The results are a smoother, firmer more youthful skin appearance. This is a low pH, slow release, high Ascorbyl Ester (Vitamin C), AHA activated treatment.

key benefits:

- Improves skins firmness and elasticity
- Evens skin tone
- Produces smoother skin
- Improves appearance of photo-damaged skin
- Brightens skin to a youthful glow
- Protects from future signs of aging
- Diminishes appearance of age spots
- Revitalizes and re-energizes your skin

directions:

Use this kit once a week for 4 weeks in the PM only. Apply treatment on the same day each week.

1. Cleanse.
2. Apply the Pro C Lift (step 1) and massage onto face in a circular motion for 1-2 minutes.
3. Apply Pro C Booster (step 2) on top of step 1 and massage onto face in a circular motion for 1-2 minutes.
4. Do not use any PM products on night of treatment. This treatment is to be removed after 5-10 minutes with cleanser. If you feel that too much product has been applied, you may wipe excess off. If you feel a moisturizer is needed prior to going to bed, only use the Daily Essential Hydrator. If irritation occurs at any time, remove with cleanser and apply the recovery gel.
